

# Company PROFILE

Led by Director Ms. Bhavana Dhomase

Our company is a leading software development firm dedicated to delivering innovative, reliable, and scalable digital solutions tailored to meet diverse business needs.

## **About Us - Brief Company Intro.**

We're more than a company — we're a movement driving innovation in software development.

About Softmass -

Founded in 2009 in Pune, India, Softmass Technologies Pvt. Ltd. is a trusted software development company delivering innovative digital solutions.

Originally known as Bizwin Softmass Technologies Pvt. Ltd. since 2009, the company was rebranded in 2022 to reflect its modern vision and growth.

Led by Miss Bhavana Dhomase-Dhanorkar, we've completed 2500+ successful projects, blending technology, creativity, and strategy to drive business success.

## Mission & Vision

#### **OUR MISSION**

To empower businesses worldwide through innovative, secure, and intelligent technology solutions that accelerate digital transformation.

We strive to build smart, scalable, and sustainable systems — from web and mobile apps to cloud, AI, and DevOps — driving measurable impact and long-term client success.

#### **OUR VISION**

To be a global leader in next-generation IT innovation, redefining how technology connects people, processes, and possibilities.

We envision a future where Softmass stands as a symbol of excellence, trust, and transformation, helping every business evolve through the power of technology.

From concept to reality, we turn your vision into digital success.

#### **Web Development**

We craft highperformance web apps
using .NET Core, React,
Next.js, Angular, and
MEAN Stack with modern
UI powered by HTML,
CSS, Bootstrap, and
Tailwind.

#### **Data Science & Analytics**

Turning complex data into actionable insights with AI, machine learning, and predictive analytics.

#### Mobile App Development

Creating native and cross-platform mobile apps that offer seamless performance and stunning user experiences.

From concept to creation, we build the future of technology.

From concept to reality, we turn your vision into digital success.

## Cloud Solutions & DevOps

Empowering businesses
with scalable cloud
infrastructure and
automated DevOps
pipelines for modern
operations.

#### **UI/UX Design**

Protecting your digital ecosystem with advanced security strategies, audits, and compliance solutions.

#### **Cybersecurity**

Designing intuitive, usercentered interfaces that combine creativity, clarity, and conversion.

From concept to creation, we build the future of technology.
